

Fred Hueston's TECH SUPPORT HOTLINE for the stone and tile restoration contractor

You don't have to feel like you're out there all by yourself.

Even professionally trained and experienced stone restoration contractors can find themselves up against unexpected challenges...

- Why won't this marble take a shine?
- Can I actually remove this stain?
- I've got an opportunity with a historical property. Now what?
- How do I treat this unique stone?
- How should I quote for this huge job?
- What products will work best for this job?
- I need some marketing guidance!

If you ever find yourself asking any of these questions, isn't it nice to know you have a safety net?

"Fred is an amazing mentor that not only can provide technical support but also his mentorship helped me take my business to the top"

Getting stuck on a job that is giving you problems you just can't seem to resolve can eat up your profits fast...

Being able to bid confidently on a job with unique requirements could make the difference in both getting the job and making it a profitable one...

Fred Hueston's Extended Support Hotline is designed to help you successfully overcome these and other real world challenges. This program makes it easy for you to access this valuable resource:

VIRTUAL SUPPORT

If you can access Facetime or Skype you can get virtual support while on the job.

EMAIL SUPPORT

Email support is available for sending questions that do not necessarily need immediate attention but a written response would be acceptable, or when photos are requested.

TELEPHONE SUPPORT

Simply call the provided hotline number. As an active subscriber your call should be answered immediately during business hours. If your call does go to voice mail it will be returned within a 24 hour period.

HOW MUCH DOES IT COST?

Annual subscription: One payment of \$795.00 or pay \$75.00/month for one year, charged to your credit/debit card.

Fred Hueston (aka Dr Fred) is an industry expert with over 35 years of experience in the stone and tile business. He has taught thousands of restoration, fabrication, and installation contractors.
